

PRAJITH VELLINGIRI

Student

Computer Science and Engineering student with a 9.13/10 CGPA and hands-on experience developing full-stack web applications, AI-powered systems, and hackathon prototypes. Proficient in C++, Python, JavaScript, SQL, REST APIs, and database-driven application development, with multiple technical competition wins and student leadership experience. Interested in software engineering and building practical technology solutions.

WORK EXPERIENCE

08/2025 -06/2026

Institution's Innovation Council

OFFICE BEARER

- Volunteered at IIC in my college, contributing to community projects and initiatives.
- Assisted in organizing and executing local events, enhancing community engagement.
- Collaborated with team members to achieve project goals, demonstrating strong teamwork.
- Supported various operational tasks, ensuring smooth execution of programs.
- Developed and implemented solutions for project-specific challenges, improving efficiency.

07/2026 -Present

Computer Science And Engineering Association

OFFICE BEARER

- Coordinated and supported technical events, workshops, and student-oriented initiatives organized by the Computer Science and Engineering Association.
- Collaborated with student coordinators and faculty members to plan and execute departmental activities.
- Contributed to organizing coding, technical, and knowledge-sharing events for CSE students.
- Assisted in event coordination, participant management, and smooth execution of association activities.

07/2026 -Present

Freelancers Club of KEC

CLUB MEMBER

- Actively participated in club activities, contributing to successful event planning and execution.
- Collaborated with diverse teams on various projects, enhancing problem-solving and communication skills.
- Demonstrated initiative in organizing and leading small group discussions, fostering a supportive community.
- Utilized organizational skills to manage club resources efficiently, ensuring smooth operations.

Self-Directed Projects & Hackathons

STUDENT SOFTWARE DEVELOPER

- Designed and developed responsive web applications and dashboards.
- Implemented CRUD operations, database integration, and REST APIs.

EDUCATION

08/2025 - 01/2029

Kongu Engineering College, Erode

B.E. COMPUTER SCIENCE & ENGINEERING

CGPA: 9.13

- Maintained a high CGPA of 9.13 through the first semester, demonstrating strong academic performance.
- Gained foundational knowledge in core computer science principles and software development practices.

01/2024 - 01/2025

RD International School, Erode

CLASS 12

Percentage: 93

Completed Class 12 education with a focus on core academic subjects.

- Developed foundational knowledge in various disciplines, enhancing critical thinking and problem-solving abilities.
- Engaged in projects and assignments that fostered independent learning and research skills.
- Achieved a strong academic record, demonstrating commitment and aptitude for learning.

- Applied Prompt Engineering and AI-assisted development to accelerate software development.
- Worked collaboratively in hackathon teams to deliver functional MVPs.

PROJECTS

<https://github.com/prajithvellingiri/insight-gov>

INSIGHTGOV AI

- Developed an AI-powered civic grievance platform for intelligent petition analysis and department routing.
- Implemented duplicate detection, priority assessment, image intelligence, semantic search, and location verification.
- Built role-based Citizen, Officer, and Admin dashboards with analytics and secure petition resolution workflows.

<https://github.com/prajithvellingiri/energy-intelligence-system>

AI ENERGY INTELLIGENCE PLATFORM

- Developed an intelligent dashboard for energy forecasting and real-time analytics, leveraging AI models to predict consumption patterns.
- Built and presented the platform during the PSG Hackathon, demonstrating skills in data visualization and machine learning application.
- Focused on creating an intuitive user interface to make complex energy data accessible to non-technical users.

<https://github.com/prajithvellingiri/seamlessstay>

SEAMLESSSTAY

- Developed a comprehensive web application for smart rental management, streamlining processes for property owners and tenants.
- Implemented features for property listing, tenant screening, and payment processing.
- Focused on creating a seamless and user-friendly experience for all platform users.

<https://github.com/prajithvellingiri/webify>

INVENTORY MANAGEMENT SYSTEM

- Built a full-stack inventory management application to track stock levels, orders, and sales.
- Developed a user-friendly web interface for efficient data entry and reporting.
- Utilized a relational database to ensure data integrity and accurate inventory control.

FIRE & SMOKE DETECTION SYSTEM

- Engineered an ESP32-based IoT system for real-time environmental monitoring.
- Programmed sensors to detect fire and smoke, triggering automated alerts to enhance safety.
- Designed the solution to be a low-cost, effective monitoring system suitable for various environments.

COMPETITIONS & ACHIEVEMENTS

TECHNICAL COMPETITION WINS

- Winner – Exodia Hackathon, developed the CelebrateX project.
- Winner – IIC Technical Quiz Competition.
- Winner – TechnoCanvas Coding Event.

- C
- C++
- Python
- Java
- Object Oriented Programming
- JavaScript
- Node.js
- Express.js
- Data Structures and Algorithms
- Prompt Engineering
- HTML5
- CSS3
- React
- Bootstrap
- PHP
- SQL
- MySQL
- MongoDB
- REST APIs
- Git
- GitHub
- Responsive Web Design

LANGUAGES

Tamil

English

German (Deutsch)

HOBBIES

Technical :

- Full Stack Web Development
- Exploring Artificial Intelligence
- Prompt Engineering
- Building Personal & Hackathon Projects
- Exploring New Technologies

Gaming :

- PC Gaming
- Competitive Multiplayer Gaming (PvP & Survival)
- Minecraft Farm & Server Optimization
- Playing Chess (Got 1500 ELO in Bullet Chess at lichess.org)
- Performance Tuning & Game Modding

- Advanced to Round 2 – Hyrup National Level Ideathon, among 10,000+ participants.

HACKATHON PARTICIPATION & VOLUNTEERING

- Engaged in multiple hackathons including Webify, PSG, and Foundation Lab Mini Hackathon enhancing rapid prototyping and collaborative development proficiencies.
- Engaged actively in campus organizations such as the Institution's Innovation Council (IIC), Rotaract Club, and ISTE through impactful volunteer efforts.
- Contributed actively to campus organizations such as the Institution's Innovation Council (IIC), Rotaract Club, and the Indian Society for Technical Education (ISTE) through volunteer efforts.
- Advanced to Round 2 in the National Level Ideathon conducted by Hyrup, competing among 10,000+ participants and showcasing strong ideation abilities.
